Branding And Design

BRANDING AND DESIGN

What people see first build their first impression, do it right and you win their curiosity and interest, that's why, with the best we have we provide:

VISUAL IDENTITY

From scratch or not, we make sure the eyes are delighted by seeing your brand, from logo to stationery, company profile design and any other visuals.

ADVERTISING CAMPAIGNS

We organize the right campaigns that convey your message in a creative way, to capture the attention of your target audience, and meet your goal, whether it was building brand awareness, increasing sales, changing behavior or others.

PRINTS

We don't leave you behind, with our expertise, we provide the right printing services for your visuals.

02

Web Application Development

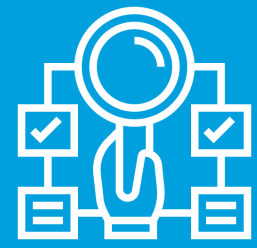

WEB APPLICATION PROGRAMING

Flex Solutions can help you organize your complex business processes that no available software can help you with by building a tailored web application that will provide you with the control and organization you wish. In Flex Solutions we focus on ease of use as it is the main factor of success.

WE NORMALLY FOLLOW THESE STEPS WHEN WE BUILD A WEB APPLICATION:

- 1-Collect and analyze the business requirements and the system of your company.
 - Meetings
 - Document
 - Agreements
- 2-Recommend IT solutions and software that suit your business needs.
- 3-Design and develop powerful and reliable systems and softwares.
- 4-Implement the system inside your company, train the staff and support these systems after the implementation phase.

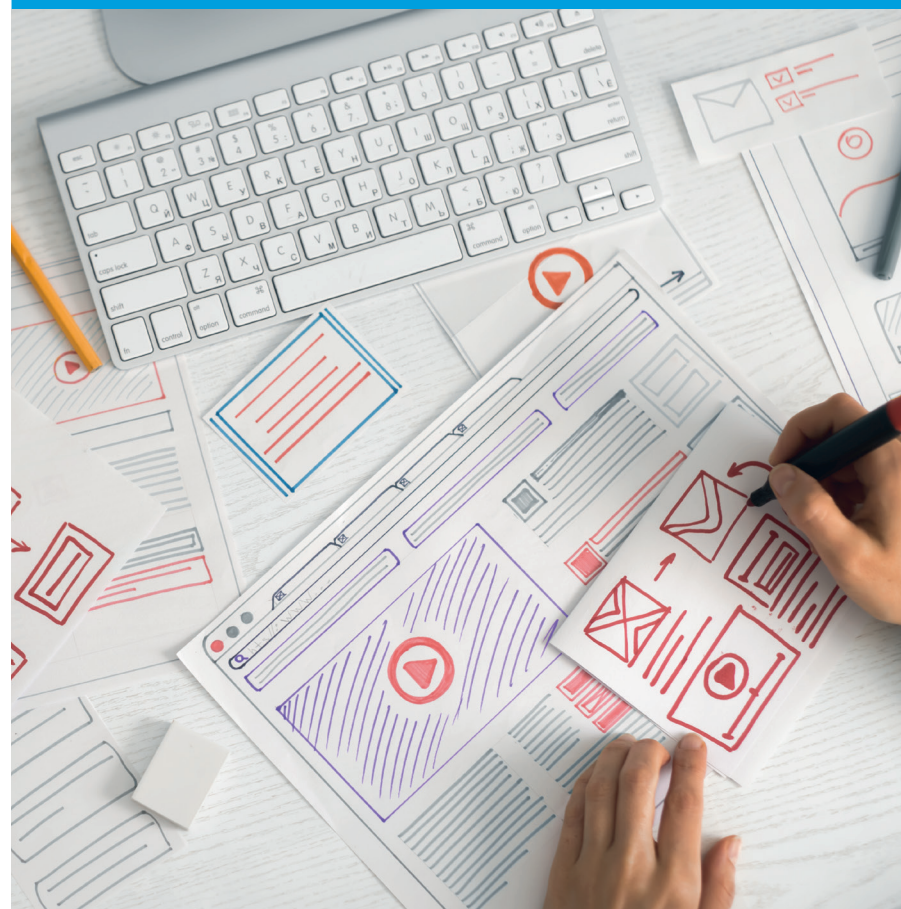

03

Process Analysis

Process Analysis

We at Flex Solutions provide our services. Since our focus is your benefit, we want to make sure we will deliver the real value to you , and in order to achieve this, we need to understand your business clearly and watch its procees very closely, analyze it and help you restractur . the process to fill any possible gaps.

04

Websites Design & Development

WEBSITES DESIGN & PROGRAMING

The company's website is the front image of the company that speaks about its business and mission. In Flex Solutoins, we aim to provide this image in the best way using the latest technologies. Flex Solutoins always work to understand the customers needs and build a suitable website for them.

WEB DESIGNING

The website's look and design has a major role in making it stand out. We transfer your ideas into a specular image that suits your brand. We also make sure that your website design is easy to use and responsive to fit all devices.

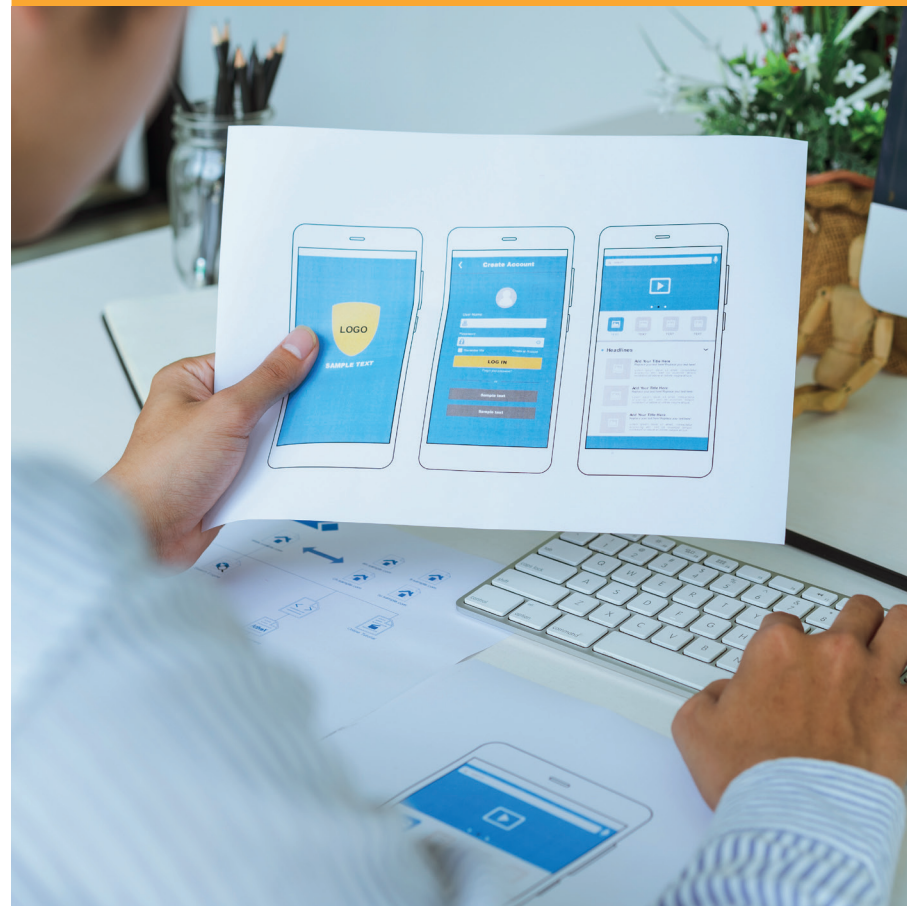

WEB DEVELOPMENT

After we complete the design of your website, we will build it using our state of the art CMS (Content Management System). Flex CMS will allow you to change all of the website contents, as per your business needs, in an easy and simple way.

05

Mobile App

Mobile App

Mobile App development has been considered the most effective and efficient means to promote your business in the market.

It's not just about creating an application; it's more about creating a powerful tool through which your customers can do various things, from checking weather updates to making reservations, booking tickets, or even shopping online.

Although websites are also a means through which your audience can reach you, it is not enough if you want a higher reach and greater accessibility.

Here are some benefits of having a mobile app for your brand:

- Enhancing your online presence and engagement with the public.
- Growing sales and purchases.
- Facilitate transactions for your audience as mobile applications are easier to use.
- Display your products and services on the application effectively and dynamically.

What our company offers you when you get your mobile application:

- An application for your brand designed, developed, and already available in app stores.
- Application dashboard.

06

Social media marketing

SOCIAL MEDIA MARKETING

We have the experience, creativity, and knowledge to create and grow your brand successfully.

We study what kind of social media campaign will be best for your brand and carry out the implementation perfectly. From Facebook to Instagram and everything in between, we look after you by offering:

- Managing social media account on all platforms.
- Traffic strategy.
- Real and tangible results.
- Creative designs.
- Attractive content that addresses your target audience.
- Set up your accounts on all social media.
- Brand analysis.
- Paid advertising management.
- Monthly reports.

07

SMS

Shares Management System

This system provides the company's capital management, which is divided into shares that are distributed to shareholders through ownership certificates.

The system provides effective mechanisms to control the movement of the shares such as buying, selling, and merging according to certain rules and in the best way to preserve the longest stock areas in each certificate.

The system facilitates communication with shareholders and answers their questions and suggestions, it also archives all contacts with them.

Through the system, the manager can also upload new plans and proposals to vote on them, and then upload the results of the voting and archive them for review.

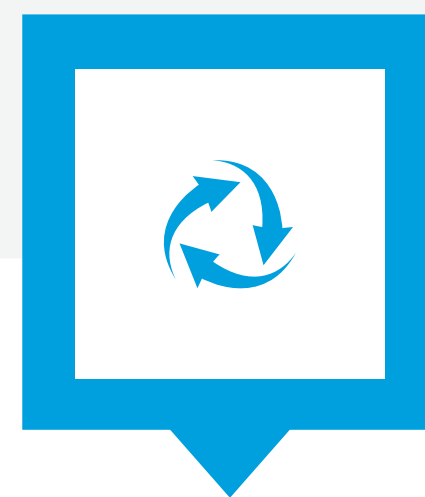

The system has easy-to-use interfaces and simple tools for managing stocks and searching for shareholder information.

The manager can define different roles for users with different permissions.

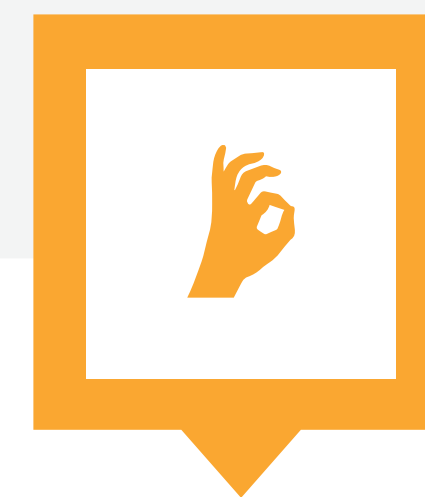

The system is easy to use and accessible through web browsers and Internet connection.
